## About me

I am a talented, ambitious and hardworking individual, with broad skills and experience in graphic design, software development and strategic digital marketing, photo and videography. Furthermore, I am adept at handling multiple tasks on a daily basis competently and at working well under pressure. A key strength is communication; building strong relationships with people in order to deliver the best results.

In the last 8 months, I have developed 7 dynamic websites for different companies and organizations. I have made graphics for over 600 clients within the same period. I have developed 3 mobile applications. I have helped three businesses quadruple their return on investment(ROI) with my advanced knowledge in strategic social media marketing and advertising.

I am confident that if I work with you, I will be a greater asset to your business or company.
